WORK EXPERIENCE

Application developer

Musicinfo [06/05/2024 – 30/09/2024]

City: Jyväskylä | **Country:** Finland

My Role Includes:

- **Mobile Application Development:** Developed and maintained high-quality mobile applications, leveraging React Native, TypeScript, Storybook, and React Native for Web, APIs integration to deliver robust and scalable solutions.
- **Refactored Legacy Codebase:** Fixed critical bugs and seamlessly integrated new API features, improving the functionality and reliability of the existing system.
- **Migrated Legacy Projects:** Successfully transitioned legacy projects to new frameworks, enhancing application efficiency and maintainability.
- **Scrum Master:** Led agile teams by facilitating sprint planning and retrospectives. Improved team meetings by fostering a collaborative and engaging environment, enhancing communication between developers and product owners.

I am a motivated and energetic professional who actively participates in discussions and contributes valuable insights. With a strong work ethic, creative, problem-solving mindset, solid business acumen, and an entrepreneurial spirit, I am committed to continuous skill development. I am always eager to learn and contribute to the team, offering innovative suggestions for product design and development to enhance usability and drive innovation.

HOBBIES AND INTERESTS

Hobbies I'm passionate about continuous learning and make the most of my free time by exploring new interests. I enjoy listening to music, playing sports like football and cricket, and diving into books. Currently, I'm learning to swim and ski, and I relish discovering new activities and spending time in nature.
